## **BRIEF PROFILE OF UNIVERSITY OF CAPE COAST (UCC)**

### **Corporate Information**

The University of Cape Coast was established in October, 1962 as a University College. This was as a result of a recommendation by an international commission appointed by the Government of Ghana in December, 1960 to advise on the future of university education in the country and the possibility of establishing Ghana's third university at Cape Coast. The University College of Cape Coast was established and formally inaugurated on December 15, 1962 and placed in special relationship with the University of Ghana.

Earlier in 1964, the government had assigned specific fields of operation to each of the country's three public universities, and the College was renamed: *The University College of Science Education*, in line with the emphasis placed on science education. It was subsequently entrusted with the task of training graduate teachers in Arts and Science; especially the latter, for the secondary schools, teacher training colleges (colleges of education) and technical institutions in Ghana.

The University building structures emanated from a Teacher Training College which was located at a place currently called the Southern Section of UCC. It expanded rapidly in size, and by 1965 further developments had begun for a permanent campus site, about 1.6 kilometers to the north of the original pioneer location. In 1966, following the change of government, the College reverted to its original name; the *University College of Cape Coast*.

In 1970, the Council of the University College recommended that Government upgrades the University College to full university status with authority to award its own degrees. As a result of this and an associated recommendation by a University Visiting Committee; appointed by the Government in the preceding

year legislation, the University of Cape Coast Act, 1971 (Act 390) was promulgated for granting full university status to the College with effect from 1<sup>st</sup> October 1971. This was later re-enforced with the University of Cape Coast Law, 1992 (PNDC Law 278).

The University is currently organized into five (5) Colleges namely: College of Agriculture and Natural Sciences (CANS), College of Education Studies (CES), College of Health and Allied Sciences (CHAS), College of Humanities and Legal Studies (CHLS), and College of Distance Education (CoDE), with each College headed by a Provost. The Vice-Chancellor is the academic and administrative head, as well as the chief disciplinary officer of the University. The Pro-Vice Chancellor assists the Vice-Chancellor. The Registrar is the chief administrative officer of the Vice-Chancellor.

### **Core Values**

As an institution of higher learning, the University of Cape Coast (UCC) is embedded in a set of core values and principles subscribed to and upheld by the faculty, students, staff and the administration. These core values which provide general guidelines towards the realization of the vision of **University of Choice** are:

**Academic Excellence:** The University of Cape Coast (UCC) has created an exciting and enviable niche in higher education in Ghana through high innovative academic standards that inform and permeate all aspects of teaching and learning, and subscribed by the university community. The members of the university community strive to advance intellectually and culturally accepted inquiry.

**Engagement:** In furtherance of its core functions, members of University of Cape Coast (UCC) develop intellectually through active and reflective learning

which enables engagement with the wider community, thus influencing policy for sustainable development.

***Ethical and Responsible Behaviour:*** All Members of the university community act honestly and responsibly, holding themselves accountable to others for their actions. In reference to socio-economic and political activities, staff, students and affiliate bodies of the university conduct themselves in a manner that upholds their integrity and the image of the university.

***Equality of Access to all Opportunities and Services:*** The University of Cape Coast is an equal opportunity institution and therefore strives to provide opportunity and access to quality education and services to all categories of persons regardless of nationality, colour, creed, race, gender, disability of all forms and social status.

***Empowerment:*** The University of Cape Coast offers opportunities for staff and students to engage in critical enquiry and life-long learning meant to enhance confidence for contribution to personal and community development.

## **Vision Statement**

The vision of the University of Cape Coast is:

*“To have a University that is strongly positioned, with a world-wide acclaim.”*

This statement of where the University sees herself in the future sets the tone for every strategic decision or choice that it has made. It sets the ambition of the organisation and serves as the lodestar that every College, Faculty, School, Department, Functional Division and individual must aspire to. In combination with its mission statement, the University of Cape Coast has articulated a view of a realistic, credible and attractive future for itself; a target that inspires all stakeholders to maximise effort in bridging the gap between their current reality and their desired future.

## **Mission Statement**

The mission statement of the University of Cape Coast is as follows:

*“The University of Cape Coast is the **University of Choice** in Ghana. It is an equal opportunity University, uniquely placed to provide quality education through the provision of comprehensive, liberal and professional programmes that challenge learners to be creative, innovative and morally responsible citizens. Through distance learning, it also extends expertise and facilities to train professionals for the education enterprise and business by employing modern technologies. The University constantly seeks alternative ways to respond to changing needs. The institution continues to expand its existing highly qualified academic and administrative staff, by offering a conducive environment that motivates them to position the University to respond effectively to the developmental needs of a changing world.”*

## **The School of Graduate Studies (SGS)**

The School of Graduate Studies (SGS) began as a Committee on Higher Degrees with a mandate to advise Senate on the University’s graduate scholarship policy and recommend the award of scholarships for approval. In 1992, the Committee on Higher Degrees was elevated to the Board of Graduate Studies and to the School of Graduate Studies and Research on 1<sup>st</sup> August, 2008 to meet the challenges of graduate studies and research. On 1<sup>st</sup> August, 2014, it was renamed the School of Graduate Studies. The Board of School of Graduate Studies (SGS) is a sub-committee of the Academic Board and is charged with the responsibility of administering graduate education in the university.

The functions of the Board are four-fold:

1. Draft regulations for all higher degrees with a view to ensuring that acceptable academic standards are maintained.
2. Receive reports and consider recommendations pertaining to higher degrees and graduate diplomas from Departmental and Faculty Committee of Graduate Studies.
3. Determine results of higher degrees or graduate diplomas.
4. Make recommendations to the Academic Board for the award of higher degrees and graduate diplomas.

The mission of the School is to create a facilitating environment for teaching, learning and training of graduate students in the fields of the sciences and humanities, equipped with initiative and leadership in key sectors of inter/national endeavour. In conformity with the mission and objectives as outlined in the university's strategic plan, the School of Graduate Studies has the following specific objectives:

1. To ensure the relevance of graduate programmes for the promotion of socio-economic, scientific and technological development of Ghana and Africa.
2. To deepen graduate training to promote teaching, research and creativity.
3. To make graduate training and research continually responsive to the changing climate of the world of work.
4. To mobilize appropriate human and material resources from within and outside the university to ensure maximum utilization of available potentials.

Currently, the University of Cape Coast has 5218 graduate students pursuing 241 graduate programmes. The breakdown is 2, 94 PhDs, 6,79 MPhil/MCom/MN

and 4,245 pursuing MA/MEd/MSc/MBA and post graduate diploma/certificate programmes. For the 2015/2016 academic year, the School graduated 2083 students including 49 PhDs.
